

Transense Technologies plc Environmental Policy

Transense has adopted a policy to safeguard the environment and, as so far is reasonably practicable, Transense will do everything it can to minimise the generation or release of substances that could affect, harm or otherwise damage the environment.

By way of further information, it is the company's policy to:

- provide appropriate information, training and skills development to Transense employees to enable them to carry out their duties mindful of the environment and the Company's concern for the environment;
- comply with relevant environmental legislation and all regulatory requirements;
- inform the Company's customers as to the appropriate use of the products or services supplied by the Company;
- encourage and support our suppliers to have appropriate environmental policies;
- dispose of waste in an environmentally sound manner and use only approved waste disposal contractors; and
- promote efficient use of energy and recycling within the Company.

It is also the Company's policy to encourage a positive and constructive approach to the environment and therefore we welcome all suggestions and feedback, especially those relating to the protection of the environment.

Signed:

Nick Hopkins

Chief Operating Officer
